In this article, the statement in the Funding section was incomplete. It was incorrectly given as ‘This research received no specific grant from any funding agency in the public, commercial, or not-for-profit sectors.’ and should have read ‘This research received no specific grant from any funding agency in the public, commercial, or not-for-profit sectors. The University of Verona is acknowledged for the support provided through the extraordinary university fund for Open Access publication.’

The original article has been corrected.
